

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Ralph Gilbert
DOCKET NO.: 06-20181.001-R-1
PARCEL NO.: 01-11-105-006-0000

The parties of record before the Property Tax Appeal Board are Ralph Gilbert, the appellant, by attorney Julie Realmuto of McCarthy & Duffy, in Chicago, and the Cook County Board of Review.

The subject property is a 64-year old, one and one-half-story style dwelling of masonry construction containing 4,262 square feet of living area with central air-conditioning, six fireplaces and a full finished basement.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted four comparable properties described as one-story or one and one-half-story masonry dwellings that are between 41 and 55 years old for consideration. According to a map submitted by the appellant, the comparables area located approximately one-half mile to two miles from the subject. All the comparables have central air-conditioning and full or partial finished or unfinished basements and three have at least one fireplace. The comparables contain from 3,770 to 4,415 square feet of living area and have improvement assessments ranging from \$16.54 to \$18.51 per square foot. The subject's improvement assessment is \$26.55 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented four comparable properties consisting of one and one-half-story masonry dwellings that are 34 to 63 years old. The comparables are located between two and five miles from the subject. The dwellings feature central air-conditioning and two fireplaces. Two comparables have partial unfinished basements, while two have no basements. These

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	14,880
IMPR.:	\$	78,506
TOTAL:	\$	93,386

properties range in size from 3,337 to 4,176 square feet and have improvement assessments of \$18.42 to \$26.36 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

The Board finds three comparables submitted by both parties were most similar to the subject in size, design, exterior construction, location and age. These comparables received the greatest weight in the Board's analysis. The range established by the most similar comparables contained in this record is \$16.62 to \$18.42 per square foot of living area. The subject's improvement assessment of \$26.55 per square foot of living area is above this range. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is not supported and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
